How it works...

1. ■ **contact us**
for price/availability of service exchange pumps or injectors, and place your order for next day delivery.

or

2. ■ **contact us**
for collection of your units for test and repair and to discuss faults.

Feather Diesel Services can arrange collection of your units – visit our website to download a collection form and view procedure. Then either **fax** the collection form back, or **email** our service department with your details.

Same day collections can usually be arranged if requested by 12 noon.

Once received Feather Diesel Services will then contact you with a report and cost of repair. At this point supply an order number or arrange payment.

Goods are then despatched to you on earliest next day delivery.
