# Repair Plugs & String

## Repair Plugs

Patch and plug combinations are designed for nail hole repairs in the tread area of radial and cross ply passenger and truck tyres. Once the punctured area has been prepared the lead wire guides the stem through the injury creating an airtight seal.

| Part No. | Description                | Qty | Price         |
|----------|----------------------------|-----|---------------|
| TBDTRH30 | 4mm Stem Patch Plug Combo  | 24  | <b>£8.99</b>  |
| TBDTRH31 | 6mm Stem Patch Plug Combo  | 24  | <b>£10.99</b> |
| TBDTRH32 | 9mm Stem Patch Plug Combo  | 24  | <b>£13.99</b> |
| TBDTRH33 | 10mm Stem Patch Plug Combo | 24  | <b>£19.99</b> |

from only  
**£8.99**  
for box of 24

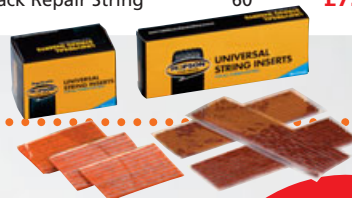

## Repair String

Repair string is classified as an emergency repair only and should be permanently repaired as soon as possible if applicable.

| Part No.   | Description                  | Qty | Price        |
|------------|------------------------------|-----|--------------|
| TBDTR31A-1 | 4" Thick Brown Repair String | 60  | <b>£4.99</b> |
| TBDTR31B-1 | 8" Thick Brown Repair String | 30  | <b>£4.99</b> |
| TBDTR31C-1 | 4" Thin Black Repair String  | 120 | <b>£6.99</b> |
| TBDTR31C-N | 8" Thin Black Repair String  | 60  | <b>£6.99</b> |
| TBDTR31D-N | 12" Thin Black Repair String | 60  | <b>£7.99</b> |

from only  
**£4.99**  
for box of 60

# Tyre Repair Patches

## Universal Tyre Repair Patches

Universal repair patches are used to repair small injuries to tubeless, radial and cross ply tyres.

| Part No. | Description                 | Qty | Price        |

## The Most Widely Used Nitrogen Inflation System in the UK

Introducing the next generation of Nitrogen inflation machines, IN2flate is the result of over 20 years research and development in the highest level motorsport and retail environments. Tyre Bay Direct are Europe's largest Nitrogen inflation system suppliers with installations in Kwik Fit, Halfords Auto Centres, Stapleton's, Merit Tyre, Selecta Tyre and thousands of dealership and fast fit centres.

An IN2flate machine is an onsite Nitrogen generator, providing an endless supply of high purity Nitrogen for tyre inflation. Available in a variety of models to suit all applications why not add Nitrogen inflation to your service range and increase your revenue, whilst offering your customers the very best inflation mixture available.

### The Difference with Nitrogen

Nitrogen inflation means less pressure loss through the tyre resulting in better tyre performance, reduced fuel consumption and safer motoring.

# Commercial Equipment

## 26" Commercial Tyre Changer

| Part No. | Description                 | Price            |
|----------|-----------------------------|------------------|
| TBDU290  | 26" Commercial Tyre Changer | <b>£3,149.00</b> |

26" Automatic electro hydraulic Tyre Machine for use on truck, bus and limited passenger wheel tyre combinations. The machine features a moveable control unit with hydraulic motor which has a pressure adjustment device. There is the ability to adjust the clamping force on the machine and the clamp range is 14"-26" and moves in both the clockwise and anti-clockwise directions.

Automatic fast turning and the ability to operate the lifting arm and tool carrier simultaneously means that this machine is a simple and effective piece of equipment at an unbeatable price. Backed with the renowned Unite quality and service, 2 year warranty as standard and the price including delivery to main land UK this is amazing value.

| Specification       | TBDU290   |
|---------------------|-----------|
| Pump Motor          | 1.5Kw     |
| Rotating Motor      | 2.2Kw     |
| Power Supply        | 220/415 v |
| Clamping Capacity   | 14" - 26" |
| Maximum Tyre Weight | 500Kg     |

**NOW ONLY**  
**£3,149**  
WAS £3,299  
or **£27.98** a week

## 24" Commercial Wheel Balancer

| Part No. | Description               | Price            |
|----------|---------------------------|------------------|
| TBDU850  | Commercial Wheel Balancer | <b>£1,299.00</b> |

Commercial Wheel Balancer for truck and bus featuring various balancing modes and a pneumatic tyre lifting device, brake pedal and with a maximum wheel weight of 150kg. The software within the balancer also features a self diagnostic and calibration function to ensure complete accuracy at all times. Extra steel support at the base of the cabinet provides rigidity during the balancing process and the machine also has manual input of the offset and wheel diameter making the operation simple but effective and is ideal for all Truck and Bus applications.

| Specification      | TBDU850   |
|--------------------|-----------|
| Max Wheel Weight   | 150Kg     |
| Power Supply       | 220/415v  |
| Balancing Accuracy | +/- 50g   |
| Rim Diameter       | 24"       |
| Measuring time     | 8-20 Secs |

## COMMERCIAL BEAD BLASTER

ONLY  
**£169.00**

Part No. TBD014C

The Bead Blaster has turned one of the most frustrating and time consuming jobs in the tyre shop into one of the quickest and easiest. The bead blaster seats the beads of difficult or flattened tubeless tyres instantly by directing a high volume blast of air into the gap left between the tyre and rim, lifting the bead to give an instant seal which allows the tyre to inflate.

# Wheel Alignment

## Supertracker Computer Wheel Aligner

| Part No.   | Description                         | Price            |
|------------|-------------------------------------|------------------|
| TBDSTR120B | Supertracker Computer Wheel Aligner | <b>£7,000.00</b> |

The Supertracker STR120B wheel alignment unit features all the latest technology, covering all aspects of adjustability within the modern vehicle chassis. The speed of the machine will enable you to do a high volume of alignments per day.

This entry level computerised aligner will enable you to meet customer demands with great value whilst still ensuring a quick return on your investment.

Quick checks can be carried out on vehicles virtually anywhere on the workshop floor or even outside. Thus only the cars proven to need adjustments will take up ramp time. The STR120B can be used on a Full Wheel Alignment Lift or a Standard Four Post Lift.

### STR120B computer standard equipment:

- 1 x Mobile Computer Workstation
- 1 x Windows Computer
- 1 x 19" Colour Monitor
- 1 x Computer Keyboard
- 1 x Printer
- 4 x Digital Infra Red Measuring Heads
- 1 x Battery Charging System
- 1 x Foot Brake Pedal Depressor
- 1 x Steering Wheel Lock
- 4 x Wheel Hangers 12" to 24"

**ONLY £7,000**  
or £56.54<sup>1</sup> a week

Call or visit our website for more information.

## Supertracker Windows Computer Aligner

| Part No.    | Description                           | Price            |
|-------------|---------------------------------------|------------------|
| TBDSTR420RW | Supertracker Windows Computer Aligner | <b>£9,100.00</b> |

The Supertracker TBDSTR420RW wheel alignment unit features all the latest technology, covering all aspects of adjustability within the modern vehicle chassis. The fast set up speed of the machine will enable you to do a high volume of alignments per day.

This aligner is impressively quick, from the initial set up to full alignment readings in a time of 59 seconds. It can be used on a full wheel alignment lift, standard four post lift, 2 post lift, pit or on a level surface.

### STR420RW Computer standard equipment:

- 1 x Mobile Computer Workstation
- 1 x Industrial Specification Linux / Windows Computer
- 1 x 19" Colour TFT Monitor
- 1 x Computer Keyboard
- 1 x Colour Inkjet Printer
- 1 x BT2 Cordless Digital Infra Red Measuring Heads
- 1 x Lithium Re-Charging System
- 1 x Foot Brake Pedal Depressor
- 1 x Steering Wheel Lock
- 4 x Wheel Hangers 12" to 24"

**ONLY £9,100**  
or £73.50<sup>1</sup> a week

Tyres from  
**Tyre Bay Direct**

\*Tyre Bay Direct are able to offer free delivery on all tyre orders being delivered to a UK Mainland business address. Next day delivery is guaranteed unless otherwise informed.

Tyre Bay Direct offer highly competitive car and commercial tyre prices with FREE next day delivery\* on ALL tyre orders – There is no minimum order required! With an enormous range of budget, midrange and premium tyres to choose from as well as ready made tyre packages, Tyre Bay Direct are the perfect choice as your tyre supplier.

## Tyre Racking & Storage

**Supershelf™ tyre racking is an effective low cost system straight from Italy for storing car and truck tyres.**

This simple to install tyre storage is assembled without any nuts or bolts and requires no special tools, only a mallet! The tubular beams provide the perfect support for car tyres. The tyre rack heights available online are either 2m, 2.5m or 3m. The tyre shelving is hugely popular with tyre distributors and tyre dealers throughout Europe, as it allows tyres to be stored safely and efficiently. Can't find a suitable size for your garage? Contact us today with your measurements for a bespoke solution.
